1. Contract reporting requirements are specified in Federal Acquisition Regulation 4.6. The Defense Federal Acquisition Regulation Supplement (DFARS) 204.670-8 states "...Classified contracts are not exempt from reporting solely because the contract is classified." While this subsection speaks to the DD Form 350 requirements, the same policy is true for reporting actions less than \$25,000.
2. Contracting officers shall begin preparing the Monthly Contracting Summary of Actions \$25,000 or Less (DD Form 1057) for special access programs immediately and ensure monthly reports are submitted for all previous contract actions coinciding with the beginning of FY93. Submit the monthly report through appropriate security channels to HQ AFMC/XRJK for consolidation and subsequent reporting.
3. Major Michael O'Neill, HQ AFMC/XRJK, DSN 787-5538 or commercial (513) 257-5538, is ready to assist your contracting officers in this matter.
